

Dear Families,

United Childcare and Preschool is a secure facility, and each family must have an entrance code for admittance to the Centers any time we are open. The code should be four numbers that are easily remembered and unique to your family.

First United families will enter the center by using the four-digit code you provided to us and then clicking **ENTER**.

Asbury families will follow the above instructions but rather than clicking **Enter** you will click the star * key.

Please do not give your number to anyone other than the people you have listed as permitted to pick up your child. Please do not allow others to enter with you! They must enter using their own code! We recommend you do not give the code to your child as an added security measure.

Thank you for helping us to keep your children safe!

LuAnn

Program Director

Child's name: _____

Names of adults using this code: _____

Four digit code: ____ - ____ - ____ - ____
